

**Eric Monger**

Eric Monger leads the team at Koch Industries focused on rail freight procurement, asset management, and in transit execution for many of the Koch affiliates and 3PL customers. Koch companies create a wide spectrum of products and services that make life better and do so responsibly while consuming fewer resources.

Eric has 15 years of experience in rail beginning as an operations manager for a Class 1 railroad, leading an independent railcar repair network, and managing a portfolio for an operating lessor. He is a graduate of the University of Notre Dame and specializes in the area of tank car regulatory compliance.
